

Achieving Success in Any Domain

Creating history in any domain requires a firm vision and unwavering commitment...but it also requires attention to detail, resiliency and a passion for what you do.

Our June Women in Business event featuring Alisa Camplin OAM was a resounding success. Alisa drew her experiences as a senior executive with corporate giant IBM and her incredible journey to become the first female Australian Winter Olympics medal-winner to reveal the mental skills and high performance techniques that have helped her achieve success.

Over 200 attendees turned out, raising \$6,000 for Finnan's Gift. Founded by Alisa and her husband following the death of her son from Congenital Heart Disease, Finnan's Gift raises much needed funds for state-of-the-art equipment for the Royal Children's Hospital in Melbourne.

Coleman Greig Lawyers, in conjunction with our sponsors St George Bank, University of Western Sydney and 360HR, presented the event at Novotel Norwest.
