

Celebrate Women – With entrepreneur Carolyn Creswell

Coleman Greig Lawyers, in conjunction with our sponsors St. George Bank, the University of Western Sydney and 360HR, was thrilled to bring you Carolyn Creswell - one of Australia's most recognised female entrepreneurs.

Carolyn's success proves that you *can* run a multinational business and still love what you do, whilst maintaining a genuine work-life balance. She provided inspirational and motivational advice for women in business, and gave insight into both her business and personal trials and triumphs. The event celebrated International Women's Day and Carolyn was a truly inspirational advocate for women.

The event also raised \$8,000 in support of My Westmead's Newborn Intensive Care Unit (NICU) at Westmead Hospital. The funds raised will help to ensure the best possible treatment is available for babies who are born prematurely and those in need of specialised care.

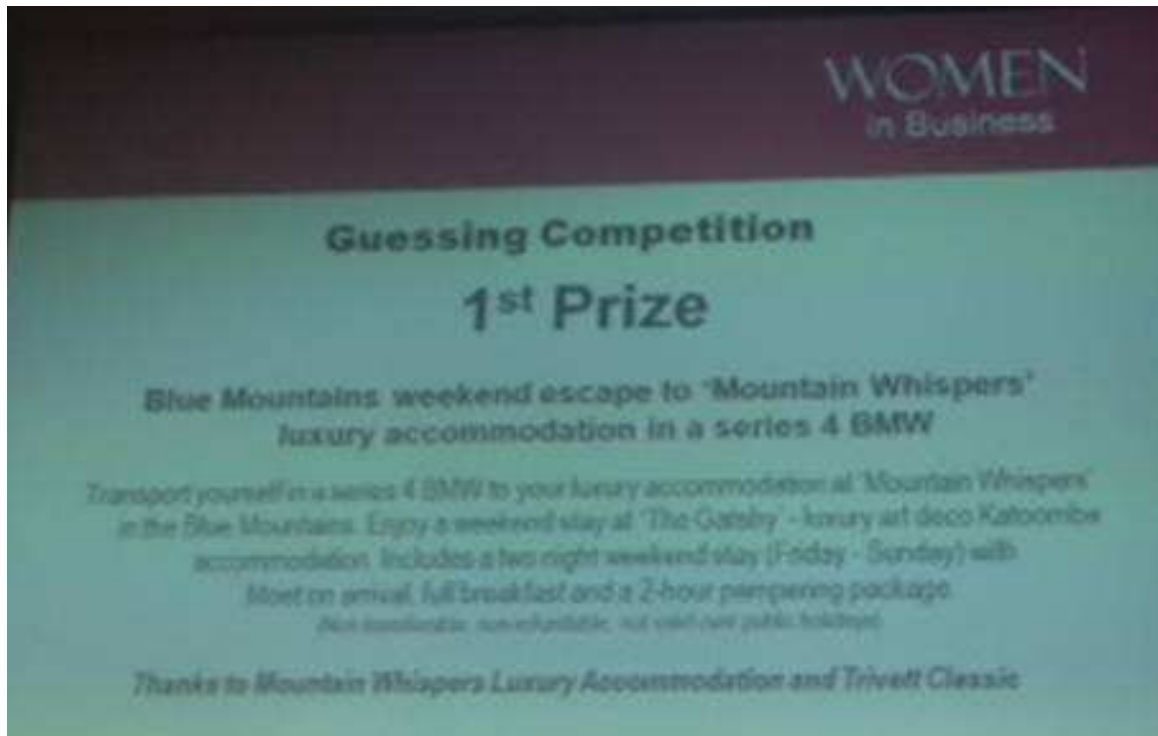

We thank all the guests at this lunch, which included senior female executives and professionals from across the Western Sydney region, for their generous donations and involvement on the day, making it once again a highly successful Women in Business event.
