

In conversation with Deborra-lee Furness and Adopt Change

We were joined by internationally acclaimed actress, Deborra-lee Furness, during National Adoption Week. A woman on a mission, Deborra-lee has had a fabulous impact fighting for the rights of children in Australia and around the world.

In conversation with Melissa Doyle, Deborra-lee provided us with an insight into her journey around the globe to raise awareness and drive change. We also heard from Jane Hunt, CEO of Adopt Change, about the adoption process in Australia and why the organisation is working so hard to make the process quicker and easier for everyone involved.

A sell out event, our Women in Business guests raised an enormous \$9,500 for Adopt Change to further their work.

Deborra-lee was named NSW Australian of the Year for 2015. She founded National Adoption Awareness Week and Adopt Change in Australia, focusing on improving adoption programs, procedures and legislation, raising awareness and understanding of the issues of vulnerable children.
