# THE MW COLLECTION

Romance awaits in the Blue Mountains, with five self-contained classic houses appealing to those with a sense of style, luxury, an appreciation of history and a love of pampering.

There's something in the air in the Blue Mountains; but it's more than just the fresh, eucalypt-infused oxygen that has lured adventurers and romantics to the World Heritage-listed wilderness on Sydney's doorstep for the past century.

The MW Collection – Varenna, Strawberry Patch, Leura Rose, The Gatsby and Chatelaine – are classic Blue Mountain cottages, impeccably brought back to their former glory by owner and historic restorer, Lorraine Allanson. No expense has been spared in recreating the glamour and glitz of each property's era, from the elegance of the Edwardian masterpiece Varenna in Leura, to the gilded Art Deco touches in the Katoomba classic, The Gatsby.

All Mountain Whispers guests are pampered with complimentary boutique wine, port and chocolates on arrival, while fresh flowers and scented candles enhance the romantic ambience.

Consistently awarded for excellence in luxury, sustainability and customer service, Mountain Whispers has also embraced the Blue Mountains Regional Business Chamber's 'Pink Business' initiative, and proudly welcomes the LGBTQI+ community.
